PRESIDENT'S MESSAGE

On behalf of the members of the Keystone Simmental Association, I would like to welcome you to the 45th Annual Keystone Connection Simmental Sale. An incredible milestone for this sale and the Simmental producers in this region. This year we are thrilled to add 5 new members to the K.S.A. A clear testament to the tradition, longevity and the strong future of this event. Guaranteed to have another exceptional offering of Bred and Open Females as well as a great offering of Bulls.

Again this year, we are excited to be sharing the venue with the great crew of consignors from the Keystone Classic Angus Sale. This is surely to be a tremendous atmosphere with a packed barn of top cattle of offer from both breeds. Thank you to Scott and his team at Bohrson Marketing who once again have been diligent in their selections. These professionals understand what each program will have in town and able to provide you with any information you require. Of course, don't hesitate to contact any of the consignors with your inquiries. We also need to thank each of our gracious sponsors who would be happy to discuss any of their products they have to offer. Please join us well in advance of sale time for lunch/hospitality, evaluate the stock and enjoy the 45th Annual Keystone Connection Simmental Sale.

Brodie McColl
President

SALES MANAGEMENT

45 years of dedication and Simmental enthusiasm has lead us here to welcome you to the 2023 edition of the Keystone Connection. The group of breeders behind this event have again consigned their very best to make this one of the greatest opportunities all year to source Simmental genetics. Bull calves, bred females and calendar year calves will all be on offer and whether you are a red, black or fullblood producer, the options will be endless.

Again this year we are pleased to be hosting the Keystone Connection alongside the Keystone Classic Angus group. We feel the combination of both of these industry leading breeds selling under one roof in a fun, joint venture makes Brandon the place to be on December 5th.

We truly believe this is one of the must attend events of the fall and encourage you to make plans to join us to take in this exceptional set of Simmental cattle. If you are unable to attend, we recommend reaching out to the breeders to discuss their sale cattle and find something that best suits your own operation. If any of us from Bohrson Marketing can be of any assistance, please don't hesitate to contact us for consultation and utilize our free order buying services.

We hope to see you in Brandon for the 45th annual Keystone Connection Simmental sale.

Best regards,

The Bohrson Marketing Team

RICH MC SIMMENTALS/FARMS

Rich Mc Simmentals is excited to welcome you to the Keystone Konnection Sale. Our goal has always been to bring you top end genetics and animals that are unique and will offer something to the industry. This year we are offering 5 very special polled and homozygous open heifers, 4 outstanding bred females and 7 top end bulls. All are right off the top end of our herd. We wanted to show you the depth of our horned and polled programs. You will see six different and unique herd sire lines and a number of founding cow family lines that we started with 25 plus years ago.

We will winter all the bulls till April 1, semen check and deliver.

For any international sales, we will work with you. Contact us to discuss options.

If you have any questions feel free to call us or the sale management. Looking forward to visiting with you on December 5!

I really appreciate the broodiness of this Polled 100% Full Fleckvieh heifer. Thick and deep, great capacity with a strong top line and hindquarter describes her well. These Ember daughters are phenomenal mothers. Take a look at the open heifer calf RMC 28L and the bull calves off dams sired by Ember and you will see why we just plain love the Embers! The maternal side of this female has a stacked pedigree. Go have a look – Juggernaut, Metro, Houston, Piona, Barbarian, Mainstream, Canadian Neff, Siegried, King Aurthur, Bold, Petra the list just goes on, and some founding lines for us including our Moses cow family as well as our Monet son –Contract- are all there. To top it off she is bred to Sibelle Pol Drakkar, one of our walking herd sires that we used on our heifers last year with great success. Have a look at some of his offspring in this sale! A complete package! Dilutor test pending
Exposed to Sibelle Pol Drakkar 16J from March 24- Aug 1. Observed bred March 24 (safe).
 Preg checked safe to March 24 breeding date on May 30 and Oct 8.

A good solid Full Fleckvieh bred heifer from an original cow family of ours and sired by Ranch Hand. She has a good solid pedigree with some older genetics that gives you some outcross genetics to work with. Khadija is a deep, dark red, well-pigmented female that is so eye appealing. Long, full ribbed and a good hip- she is just darn good! A maternal sister sold last year in the Keystone sale and now calls Dunmac Farms home in Ontario. Bred to our dark red, well pigmented Sibelle Pol Drakkar. Have a look at his calves in the sale! Dilutor test pending.
Exposed to Sibelle Pol Drakkar 16J from March 24-August 1. Observed bred April 7 and April 29(safe).
 Preg checked safe to April 29 breeding date on May 30 and Oct 8.

Well, well look what we have here! This 100% Full Fleckvieh female should not be leaving! I think I'm in a bit of trouble with Jason on saying she can go to the sale! A beautiful feminine Polled, non dilutor female just like her mother, Blossum, with the power from Havoc. Well-balanced, deep bodied, excellent length with a strong top line. She is a bell ringer! This cross works really well. Check out her full brother Limitless 14L in the sale as well! Great epds and she was ranked number 1 and 2 in our herd for weaning and yearling weights, on top of an exciting pedigree! She is 100% Full Fleckvieh.

Exposed to Sibelle Pol Drakkar 16J March 24-August 1. Observed bred March 26(safe).

Preg checked safe to March 26 breeding date on May 30 and Oct 8.

I really like the thickness in this 100% Full Fleckvieh Fullblood female. Thick and deep with a great spring of rib and a strong hindquarter describes her. Again coming from a founding cow family we called Royal (Klondike Arnie x Great Guns Moses) that we purchased back in the fall of 2001 for our daughter Avery to put away money for a college fund. It was a great investment for her! Kaluna has a maternal sister, Josephine, which was sold in this sale last year and is walking the great pastures of Virginia Ranch. Harry is pleased with his Drakkar heifer calf off Josephine, and I'm sure you will be pleased with Kaluna's Drakkar calf this spring. She is 100% Full Fleckvieh. Dilutor test pending.

Exposed to Sibelle Pol Drakkar 16J March 24-August 1. Observed bred March 31(safe).

Preg checked safe to March 31 on May 30 and Oct 8.

People always ask us if this is a female that is going to make a donor cow. We never know how to answer this- but this one is right out of our future donor pen! So call us CRAZY for letting her go! This is probably one of the strongest heifers that we have ever raised and to think that she is HOMOZYGOUS polled IS CRAZY! Powerful, thick, deep, strong wide top line, broody, yet feminine and eye appealing. I'm drooling just thinking about her. I really feel she has something to offer the industry, and all her calves will be polled. These Havoc calves are really something. Have a look at her paternal bred sister and her paternal brothers that are in this sale. Her dam has consistently produced outstanding offspring for us. She has a maternal sister at Starwest that was sold 2 years ago out of this sale as a high seller. Oh, and she is a non-dilutor 100% Full Fleckvieh Fullblood with a pedigree to match her as well!

She is as sweet as Strawberry wine! She is my untouchable, but Jason said if he had to let his untouchable go, then so did I. A Polled 100% Full Fleckvieh Fullblood, sired by Rich Mc Hero, whose maternal brother is in the sale as RMC 3L. Hero also sired one of our high sellers last year (Rich Mc Ms Fancy Pants PPF 9K) going to Robb Farms. Her dam is a BEE Battle Cry daughter, and we love our BEE Battle Cry females. This sweet heart is powerful, thick topped, deep bodied, long through the loin and well pigmented. A pedigree second to none, with some out cross genetics that make her all the more desirable. I love her! Non Dilutor test pending

She is a Pretty Girl and she knows she is good. A Polled non-dilutor 100% Full Fleckvieh that has that presents about her that you are instantly drawn to. Her entire maternal line is so constant. Her maternal sisters and mother just keep having the good ones. Here maternal sister RMC 16G has an outstanding bred heifer sired by Havoc selling in the Mangolia Classic in Mississippi. That would be a cross I would consider in the future for this Pretty Girl. Oh, and did I mention she is sired by the so constant Ember- enough said about her lineage. A standout from day one, thick, deep well balanced, free moving – why are we selling her? Not to sound like a broken record but these top end power females are all just plumb good!

A pretty sweet package here! A Polled 100% Full Fleckvieh. She is the first heifer to sell out of the high selling bull Ultra Battle Royale 56J and damed by the high selling and up and coming Applecross Cabernet 14G. Cabernet produced a high selling bull last year for this sale. Sweet Dreams is royally bred paternally with Battle Cry, and the Canadian Donor/Ultra flush cow WJS Eliza – (you will see the likes of Rapture, IPU 280D Ms Rhonda 33M, Exodus and Kysko Haped in Eliza's pedigree). Then maternally you will see the likes of JNR Salton, Stuey, Whistler, Moses, Rogant, Banker, and IPU Ms Ronda 45T. Prime Ridge Stock Farms walks a high selling maternal brother. A thick, deep bodied, well pigmented female. It doesn't get much better than this and gives you lots of genetics to work with. Dilutor test pending.

This powerful non dilutor, 100% Full Fleckvieh Fullblood bull is pure excitement! Being sired by the exciting Skywest Pol Havoc and anchored by the high selling outcross dam JB CDN Gwyneth 1830, you have an exciting package. The combination of Havoc and Gwyneth is something to behold. Gwyneth has already produced breeder bulls for both us via Rich Mc Hero 35H and the high selling bull Rich Mc Pol Game Changer now at Oakview. Take a look at Lincolns paternal siblings in the sale. Lincoln is probably one of the most balanced bulls I have seen. This top indexing bull is thick, deep, great capacity, outstanding muscle expression, outstanding length, good testicular development and a real gentleman to work with. He looks so much like his sire Havoc, that when I look at photos I have to take a second look to see whom it is. I really feel this guy can go out and contribute to any program.

Limitless 14L a Polled, non dilutor 100% Full Fleckvieh Fullblood, was our number 2 indexing bull at weaning. A good set of epds and sired by the popular Havoc, and anchored maternally by Blossom. Take a look at his full sister, Rich Mc Pol Khaleesi 49K in the sale as well as his paternal siblings! We really wanted to demonstrate what this Blossom cow family can do, and this cross with Havoc is very exciting! Great length, smooth, some calving ease with performance, deep red with great pigmentation, and good testicular development! Limitless is just that, there are limitless possibilities here.

Hercules, a Polled non dilutor 100% Full Fleckvieh Fullblood is another phenomenal Havoc son out of a really good cow we purchased as a high seller from Mike Imler a few years ago. His dam, Miss Exray goes back to a founding cow for us, Richmond Miss Moses, so we knew we needed to own her when she was sold. Moses was a great female maker and, Exray has done the same, with all three daughters in our herd. I'm sure Hercules will be able to produce those great founding females as well. Long, thick, full hindquarter, muscle expression, and deep red, great pigmentation- these Havoc sons are all the same. Just WOW!

Ragnar is a Polled, non dilutor 100% Full Fleckvieh Fullblood. I really love this pedigree. His sire, Drakkar was used on all our first calf heifers last year and did a phenomenal job. Calves came easy with a respectable birth weights and held their own keeping up with the other bulls, weaning off with good weaning weights. Having bulls with calving ease numbers close up in his pedigree, such as Drakkar, Ember, Blueprint, Legend, BEE Battle Cry, and Anchor T supreme, Ragnar should have some calving ease bred in. Good muscle expression, nice head, and great color and pigmentation- this should be an exciting herd bull.

Bjorn, a polled 100% Full Fleckvieh Fullblood, is again another reason to like these Drakkar calves, having a respectable birth weight and calving ease numbers and weaning off at a great 908 pounds on September 3 off a first calf Ember daughter is really sweet! Maternally having the Moses cow always makes me happy. Again, good muscle expression, wide top, nice head- this should be an exciting herd bull.

An exciting non dilutor 100% Full Fleckvieh Fullblood, Magnus, has a real eye appealing look. Smooth, long thick, wide topped, thick quarter, what is there not to like! Being out of Rich Mc Hero, his paternal grandmother is Gwyneth, the dam of the bull Rich Mc Lincoln 3L, who is also in the sale. Magnus also has a paternal sister in the sale, Rich Mc Pol Strawberry Wine 10L. Maternally Magnus is again off an Ember daughter and anchored by the Jola cow family, makes it easy to like him. As you can see family lines are very important to us to create consistency, predictability and thus profitability, thus the reason to show the similarities genotypically and phenotypically of our cattle. Please Enjoy!

WLB LIVESTOCK

Nancy and I are excited to return to the Keystone Konnection sale group and to be working with the Bohrson crew again. The Keystone Konnection is well known for the excellent cow and show prospects that are available in this event. WLB has bought more than one money making female at the Keystone Konnection Sale. We hope you will stop by our pen and look forward to visiting with you at the sale.

BILL & NANCY BIGLIENI | DOUGLAS, MANITOBA
 BILL: 204 729-7925 | WLBLIVESTOCK@GMAIL.COM

I bought Tina in dam at the two day R Plus dispersal. After seeing all those deep bodied bred heifers coming through the ring carrying a service to WLB Top Tier I had to own one even though we dispersed our herd a couple years before. I would dearly love to keep her but it isn't our plan to build another herd like we had so this exceptionally deep bodied, "thicker than most" heifer needs to find a good home..I think she'll hold her own in the show ring but I encourage you to buy her for the brood cow that I think she'll become.

BIG SKY SIMMENTALS

Welcome to Keystone Connection 2023. We at Big Sky are very excited to be consigning with the group here. This year we are bringing two very special females and 1 outstanding herdsire prospect to town. Cow families are very important to us and our 3 consignments go back to some pretty special cow families. As the kids get older, the more involved they are becoming. You will notice the disposition on our consignments to be super quiet which we have to give total credit to the kids. We are confident that the 3 we have coming to town will add tremendous quality to their new owners herd so buy with confidence. We are just east of Rivers and would be happy to show you them and their dams anytime!! They have all been fully vaccinated including 1st shot of scout guard. We look forward to seeing everyone sale day!!

TREVOR & AMY PETERS AND FAMILY | RIVERS, MB
 TREVOR CELL: (204)741-0967 | AMY CELL: (204)573-3039

DIRECTIONS: FROM RIVERS- 4 MILES EAST ON HWY 25 TO RD 117 THEN 1.5 MILES NORTH ON 117. WEST SIDE. BIG SKY FARM SIGN.

Chevy is one of a kind. When you analyze him from front to back its hard to fault him. Thick but smooth, large hoof, and a square deep quarter when you get around behind him with abundance of hair. He is kitten quiet as the kids have dragged him up and down the show road all summer and fall. He was crowned Supreme Champion Simmental bull in Harding this summer and Reserve Champion Bull at the Black Gold Classic All Breeds in Virden this fall and the kids can't wait to show him off at Ag Ex. His sire, Skywest Havoc, was the exciting polledbull Skywest sold in 2021 for a staggering \$41000 who's semen has only come on the market very limited times. Brad & Keegan managed to get their hands on some and was no mistake when using it on Chevys dam Halo. Halo herself has been a great purchase as she has worked hard and raised two top notch bull calves so far, we all look forward to see what she drops in early January! Homo Polled and Dilution Test pending

CO-OWNED with KSL Simmentals - Brad Smith and Keegan Scorgie

Everyone knows that in every marriage, there are difficult times and arguments happen. Well, let me tell you, the decision to sell 515J caused some "intense conversations" between Amy and I. Cow families are so important with us, and anything going back to the Anchor T Krystall cow family doesn't generally leave the farm. Well let's just say, Amy won this "conversation" and here she is! Her dam, Lil Star, who is a great great grand daughter to the iconic Krystall cow, has a soft spot at Big Sky. You just can't beat her type, big barrel, perfect udder and always grabs your eye with her style. Jane looks to be following in her dam's footsteps. She has a look that grabs you and is dropping the ideal udder type. The Blueprint females have always proven to be low maintenance and second to none dispositions. Expect a beauty polled baby end of January that will definitely be top of the pen by this time next year.

Natural service to JB CDN Helios 2244 on April 20. Ultrasounded safe to natural service.

Karmen is as dark red as they come and has a superb disposition. Karmen comes out of one of the most proven cow families in our herd. She's a direct daughter the of the 3B cow that has knocked it out of the park year after year. We sold a maternal sister that topped the 2019 Keystone Sale. 3B's 2023 bull calf was shown very successfully all summer, claiming Supreme Champion Bull at multiple milk run shows and also made his debut at Ag Ex. We always like to go back in time and use bulls that in the past made top end animals in our herd and Gidsco Appollo did that and things didn't change using him now. 8K is moderate, stout, sound and ready to ring the bell with her polled HP Bravo baby coming in early January.

AI to Grinaltas HP Bravo FF982E on Mar. 27
 Exposed Apr.20-May 10 to JB CDN Helios 2244. Ultrasounded safe to AI.

MCCOLL SIMMENTALS/SCHWEITZER SIMMENTALS

From our family, McColl/Schweitzer we are thrilled to have this years offering presented to you at the 45th Annual Keystone Konection Sale. It is an honour to be amongst some of the finest breeders this breed has to offer.

We are excited to offer 3 breds and 3 opens this year. Each of which were selected with confidence by the Bohrson crew.

Our breds are preg checked safe as indicated on their respective write ups, to our very exciting calving ease bull, "PLCC 44K Timberwolf".

The 3 open offerings are from 3 strong producing cows that year after year have done it right. Each of these 3 opens are sure to be 4-H youngster prospects

This Swayze female is deep ribbed, easy doing, moderate in size, with lots of volume. She's peaked polled & clean up front. You'll find lots of performance built in here: Top 2% (WWT), Top 3% (YWT) & above breed average in many other areas. She's EXTREMELY quiet & easy to work with! A bonus is being bred to our new calving ease, homo polled, hetero black herdsire "Perks TimberWolf 44K" (Sunrise Captain Blaze 5C x ACS Brick 112Y). Perks Timber Wolf 44K is a full brother to Perks Red Wolf 44G that sold to Beechinor Bros. Simmentals.

Exposed from March 22nd to May 28th, 2023 to Perks TimberWolf 44K

Observed bred on March 22nd & April 23rd to Perks Timber Wolf 44K

Preg checked safe to observed breeding date of April 23rd.

This polled "Betts" open heifer is a maternal sib to Lot #122 and has a very strong pedigree. Lainey is a deep cherry red, free moving female. She is long & deep bodied with lots of hip, fancy & clean fronted, with above breed averages in CE (10%), Milk (25%), MCE (1%) & MWWT (30%). 10L & 21K's dam is a top producer in our herd. She milks well and puts all she can into her offspring. Lainey would make a great 4-H heifer and go on to be a top foundation cow for her new owner.

These Crosby Females have made their mark on our industry with their easy doing natures and attractive appeal. This female comes from one of our best red cows in the herd BLCC Miss Crosby 92F that we purchased from the great people at Bonchuk Farms. On the top side she goes back to the very well known Grand Sire Spring Creek Launch 110E, in what tops up her pedigree with consistency and predictability with maternal greatness! June is the type of female that will lay down and produce great calves year after year for you. To top it all off, she's bred to our new red walking herd sire Wheatland Express Way 149J. This combination will be a great mix of calving ease and performance. We are very excited to be able to walk Express Way and to be working with Woody Klassen/Salty Lake Simmentals to show how great Wheatland Express Way 149J is!

Welcome to the 45th Annual Keystone Konnection sale. To say the least it has been an interesting year; from a dry spring with the crop in early to what looked like an early harvest, then stretching out until October 20th on the grain end. We are thankful for many things as an ample feed supply was put up considering conditions, as well pastures and water holes kept up until late fall with some later rains. In the cattle market end; things have spiked looking promising into the future, making for a little more than normal enthusiasm in the business! As per usual top quality cattle are bringing a premium and that is what we have brought to town for you to analyze. We have 5 breds, from reds to blacks to baldies that we feel are a nice mix of genetics and easy keeping quality types that will last in their new herds for years to come. These girls are all mated to exciting AI sires; the resulting offspring should be thrilling! Buy with confidence; we only bring our best to town. Looking forward to seeing everyone December 5th, if you have any questions on our offering; feel free to contact us or stop by and see the ladies at the ranch prior to sale time.

A more moderate, yet deep and thick female. Out of the calving ease Red Heat bull that has done well in our breeding program. Back to the Centerfire and Toblerone bulls on the cow's side which have left us numerous females in the herd, much maternal there. I'd say she's come along quite nicely out of a first calf heifer! She is bred to the exciting Copperhead bull from High Country which his first calf crop for us looks very impressive with a mix of new genetics.

A very stylish, eye catching black baldy heifer with a black goggle. This most definitely should have been a keeper in the herd but we wanted to showcase our best and first bred to sell off of our HHFS Hercules bull. He is the Savage D20 son we bought out of the Indian River sale. On her dam side; easily the most eye catching baldy Absolute cow in the herd! The 16G cow is very long and angular with a tremendous udder; if 84K follows suit you will have a front pasture cow here. Mated to LFE Style the baldy calf she most likely lays down to have will be a good one!

A heifer here as well that we most likely should have been retaining in the herd as we did not have many True North calves but the ones we did were very impressive. She is a very stylish and angular heifer as most of the True North's we have seen are; very sweet heifer to picture as she profiles naturally. Maternally backed by one of the best lines of cows on the ranch, going back to her granddam the Paris 47Y cow. This pedigree you can trace back to many of our catalogued sale greats in the bull and heifer divisions alike. If you are looking for longevity and udder quality backed by productivity and fertility look no further. AI mated to the black blaze face bull Reserve, this new mix of genetics should warrant exciting results!

 CRESTS MISS FORCE 37A

A very eye catching black blaze face heifer here. A HHFS Hercules daughter, who again is a Savage son out of a IRCC Broker cow. We are very impressed with his offspring and are happy to bring a couple to town to showcase. Herc's calves look better again this year. With a good amount of calving ease built into this heifer with the likes of Loaded Up, Broker, Cobra and back to the 37A Shear Force cow who is one of the most moderate but productive cows on the place. Udder uniformity runs very deep maternally in this pedigree; 185K looks to be following suit. Kacey is a very deep bodied female with a lot of volume. AI mated to the new blaze faced LCDR Reserve bull you will likely get that money strip painted on her baby.

CREEKSIDE CATTLE CO.

Welcome to the 45th annual Keystone Konnection Simmental Sale!

This year I'm excited to be offering a heifer calf out of the heart of my program. If you know me well, you know I have a pretty huge soft spot for the flecks in our yard, Lotto being one to watch since the day she was born. She checks a lot of boxes for me, long spined, soft sided, lots of pigment and a polled head to boot. Most importantly she's correct and very honest in her makeup, the type of cattle I strive to produce.

We look forward to seeing you sale day!

AD, DEBBIE & SYDNEY DE KONING | EDEN, MB
 SYDNEY'S CELL: 204-212-0867 | OFFICE: 204-966-3342

Full Fleckvieh. Lotto is the product of two cow families that are destined for greatness in my herd. Her dam Big Sky Equity is past Konnection alumni and has been a non stop producing power cow, while on the sire side she's out of our home raised Sully bull — a big footed dark red, super correct structured, heavy muscled son out of my Lonestone Sadie cow who's on track to be a donor after proving her maternal worth time and time again. Polled on both sides of her unique outcrossed pedigree.

A heifer with lots of rib depth and shape. She offers some different old genetics through her sire LCDR American Red 99E- a herdbull at Crossroads. Her 10 year old dam has been very fertile- always sticking to AI breedings and her udder stays sound and tight. A very nice set of numbers highlighting milk and MCE. Once again, a nice heifer for a 4-H or YCS project.

LCDR American Red 99E - Sire

FLYING W STOCK FARM

First off we would like to thank the Keystone group and Bohrsen Marketing for letting us be a part of the 45th annual Keystone Konnection Sale. Here at Flying W we believe in breeding and selling quality proven Simmental genetics. Although Flying W is a new name to most people in the cattle business we have been raising purebred Simmentals since 1996. Our offering is right off the top of our heifer pen as we offer a couple of 3/4 siblings Sired by LFE Stratton 3094F. We look forward to visiting with everyone and hope to see you all on sale day.

Miss Lacey is a moderate female but still puts it all together with a very feminine look that transitions into a very well put together female. Lacey is a stylish eye appealing heifer that is correct in her make up. She is a heifer who portrays her sires style, LFE Stratton quite well with a dark cherry red colour and a fancy white blaze on her face. .

MORE BROS. SIMMENTALS

We are pleased to be part of the Keystone Konnection group- consigning for our 24th year. Our small herd is now a retirement project and in addition to keeping me physically and mentally active, enables us to be a part of the great group of people in the cattle industry. As always there will be an excellent selection of cattle in this sale, covering all facets of the breed. Please stop by our stall for a visit.

EVERETT MORE AND IRENE VANIN | VIRDEN MB.
C: 204-851-1737 | EMSIM1946@GMAIL.COM

206K is the result of an embryo purchased from Double Bar D. She is a good footed, correctly made heifer- traits inherited from both her sire and dam. Her big rib cage and deep rear quarter lend to her easy keeping ability, and her EPDs are in the breed average range across the board. We successfully exhibited a full sister as part of our 2023 summer show string. As part of our comprehensive herd health program, 206K has received both her initial and booster Scourbos vaccination. Bred to MRL Red Force 12U - one of the breed's most useful calving ease bulls of all time.

Bred to MRL Red Force 12U on April 23.
Preg checked safe. Due Feb 3rd.

RAINBOW RIVER SIMMENTALS

Hi everyone and welcome to the 45th edition of the Keystone Konection Sale! As I sit down to write this footnote, I realize that it's been four years since we consigned to this sale. We've taken that time to adjust to a new marketing plan for our females after moving from Minnedosa to Fisher Branch in 2017. With our change of location and increase in herd size to almost 200 head, we started an annual online sale with DLMS Farm Gate to market the majority of our open heifers, bred females and select frozen genetics since 2020. We really enjoy that marketing strategy and are continuing to host that sale on the first Friday of November each year, but we have also really missed being part of the Keystone Konection Sale. We have always loved the social outing that comes with this sale, but also, since not very many people make the trip to Fisher Branch, we want to ensure that we are not "forgotten" by the industry. We invest heavily in our breeding program and are confident that our cattle can stand with the best of them. As such, we've decided that bringing a couple of our favourite heifers out from between the lakes to showcase in Brandon is a good way to highlight the depth of our breeding program to the industry. The buyers of these heifers will be entered into our "Come 'N Get It" promo where you have the chance to win one dose of Mandate semen or a \$500 sale credit (details on our website). We invite you to come for a drive to Fisher Branch to view the heifers, their dams and their siblings in person. We promise it's worth the trip! If we can't host you here on the farm prior to December 5, then we look forward to seeing you in Brandon on sale day!

 RAINBOWRIVERSIMMENTALS@GMAIL.COM | WWW.RAINBOWRIVERSIMMENTALS.COM

A beautifully constructed daughter of the popular WTL from a top cow family in our program. Her great granddam sets the bar for consistency and maternal strength in production and has been added to our donor roster for 2024. We have retained nearly all of 9B's daughters in-herd, but we selected her 2023 daughter by WTL to sell as a feature in our Online Female Sale on November 10 this year. 5L's dam is young but has impressed in production thus far, raising a standout in 5L and one of our top red bulls last year. She adds a different twist to pedigree with being a daughter of Crimson Tide, a bull who was held highly exclusive and is mothered by a gorgeous donor from the Silver Towne Farms program in the US. If you aren't familiar with who STF Miss ZW87 is, look her up online. She's a beaut! 5L was always found on pasture tours this year and was Taylor Richard's top pick of our heifers when he toured this summer.

I took the task of selecting our first Mandate daughter to bring to town very seriously. 68L came to the top very quickly because she blends high quality phenotype with predictably and recognizable pedigree. Her dam is our Sage 37F donor who is a direct daughter of WFL Red Sage 506C and a full sister to SVS Betts. 37F has been a powerhouse in production. Her first daughter, Sage 11H, is a fourth generation donor working for us, plus we have three other feature daughters retained in-herd and three ET sons by WTL that lead the red division in our bull pen this year. 68L is her natural calf and shows off exactly what 37F is capable of. The cherry on top though, is 68L's sire. Mandate has proven his prepotency in his first calf crop and reaffirms our decision to spend \$160,000 to own him. Mandate is the most impressive footed bull I have seen, is powerful yet extremely sound on the move, shortens gestation, and offers a unique combination of calving ease and performance that isn't replicated by many sires. We have held him highly exclusive and there are very few opportunities to secure a Mandate daughter this year. Don't miss this special opportunity!

Another opportunity at a XXC 67Z X PWK Whiskey daughter. She has the long wavy Whiskey hair, is thick and deep bodied, smooth fronted and solid red. Full sibs are working for Momotiuk Farms (sister sold thru Season Wrap Up), Robbie Milliken (brother), as well as 2 sisters retained in herd. Maternal sibs working for Don Kunzelman (brother) Gordon Bros., Anders Pedersen, and Prairie Ridge Stock Farm (sisters). Proven as you can get!!!!

Here's a dark red female with performance in a bit of added frame. She's deep bodied, and loose hided. Liberty is out of 2 black parents. A 1/2 sister and brother are working for the good people at Momotiuk Farms. And we have a 1/2 sister retained in herd. There's proven longevity in the cow family - CRRW 2L's granddam had twins and is bred back early at 12 yrs of age.

COUNTRY ROCK RANCH

DIAMOND R STOCK FARM

Welcome to the Keystone Konection Sale! We are the Rutten family from Wawota Saskatchewan. We currently calve 250 cows of both purebred and commercial. Our purebred numbers consist of Simmental, Angus and Charolais. The base of our commercial herd is the Sim/Angus cow. We are proud to be a part of a long standing group bringing quality genetics for your appraisal! Thanks to the Keystone Konection group for allowing us this opportunity! We are excited to visit with you!

BRAD & JAYNE, LARISSA AND CADE RUTTEN | 306-577-7369 | WAWOTA, SK

DIRECTIONS: 4.5 MILES EAST OF WAWOTA THEN 1/2 MILE SOUTH ON MOUNTNEY ROAD.

We are proud to bring you our top heifer calf this year! RUT Dusty's Soda 41L has been a standout since birth! Her dam is an exceptional female with an impeccable udder. 41L's sire is a high selling Game Face son from the Zimmer family. Tillman has done a great job here on females and bulls alike. This little lady will grab your attention! Performance in a stylish package! The Sodas are a foundation cow family built on years of production excellence.

Co-owned with Dusty Rose Cattle

RAMROD LIVESTOCK

Welcome to the Keystone Konnection Sale. Myself and Lacey run a purebred Angus and Simmental operation. We are very honoured to be a part of this sale. We look forward to visiting with everyone at the sale and to meet new friends.

RYAN & LACEY BROWN | DELORAINE, MB

146

This is the very first Simmental female we have let available for auction and we wanted the first one to be a special one! We feel this heifer is very promising with her build and pedigree behind her. 316L herself is great through her front end, sound footed, has good muscle shape loads of bone and vey sound at the ground. Be sure to stop by in Brandon to see her for yourself.

STRIKER CATTLE CO.

23 years of missing the Simmental business, the people involved and of course the cattle. Tyler's interest was the excuse needed to rekindle the spirit. It is our hobby, but we do take it seriously.

Tyler, his wife Lindsay and their 4 children live on an acreage south of Brandon that is now home to Striker Cattle Co. My wife, Sheree and I (Kim) live in Brandon.

Over the last couple of years we have purchased a handful of what we feel are very strong females and are constantly researching sires to compliment these cows. We have done some embryo work to help form a solid base to our herd as well as produce progeny that are hopefully appealing to the industry.

So looking forward to being a part of the Keystone Sale.
